

**Genetic Analysis Workshop 20
Request for Data – Epigenetics and Pharmacogenomics**

We wish to request the Epigenetics and Pharmacogenomics dataset assembled for Genetic Analysis Workshop 20 (GAW20). Data will be provided via electronic download from a password-protected read-only ShareFile folder. We understand that the contact person listed below will be the sole person in our group with access to the GAW20 ShareFile folder. We understand data must be downloaded and stored on a separate server, ShareFile, or other storage means.

The following individuals will be members of our group. **We understand that only group members specified on this form should have access to the GAW20 data and may be authors on analyses submitted for GAW20 purposes.** We are aware that these data are to be used only for GAW20. We will not use them for any other purpose without written permission of the data providers. We will seek such permission early, and will not submit separate analyses for publication until after the GAW20 proceedings are in press. We understand that no intellectual property will be generated from the GAW20 data.

Name of each member of group <i>(type or print clearly – attach additional pages as necessary)</i>	Email address	Signature
